

Snyder Swimming Pools, Inc.
50 Narrows Road
Westminster, MA 01473
(978)-874-2333

IMPORTANT INFORMATION

As winter begins we are asking you to take a look at your pool and cover.

September and October have given us record precipitation. The water accumulation on your cover can be a concern during the winter. The weight of the cover pushing down on the pool water causes it to displace.

We recommend you pump off the cover and put the water back under the cover and into the pool itself. This will balance the level and allow for further accumulation.

Should you not be able to perform this task, we can provide the service to you as a standard service call. Our service crew is still out Monday - Saturday and happy to help.

Please feel free to contact us at any time at (978)874-2333.
