

SNYDER POOLS NEWS

Happy New Year! With 2021 now behind us, we are looking forward to the 2022 season. With the pandemic still effecting so many, we are in for another busy year of building beautiful backyards. We hope to bring normalcy, joy, and endless memories to many families in 2022.

The first of the year, major convention is happening in Atlantic City later this month. There will be many new innovations on display and, we understand, excitingly different new shapes in fiberglass pools from our manufacturers. Also new this year, with our enhanced stockyard, we can offer potential customers fiberglass pools that are already available and ready to go. Our employees are looking forward to training in all that is new this year at the convention to better serve you!

So, our valued customer are aware, hot tubs are in short supply right now. If you and your family are interested in adding a hot tub to your backyard oasis we are currently booking into early fall. Time to start planning ahead for hot tub season!

Spring is right around the corner, and we have pre-ordered bulk chemicals, parts, and products to get ahead of another year of shortages in the swimming pool and hot tub industry.

Our retail store is open and welcoming our wonderful customers safely by implementing a mask mandate for our staff and every customer entering our retail store. Hopefully this will be temporary, but we want to make sure we do not have to close our retail store.

In the recent past we have had some shortages in products, but with patience and understanding from all our customers, we were able to fulfill contracts and keep inventory coming in. We thank all of you for your loyalty and patience. Hopefully, spring will be early this year so we can begin the many projects on our books and make our customer's dreams a reality!

Retail Store Hours:

Monday - Friday: 9 am - 4 pm

Saturday: 9 am - 1 pm

Sunday: Closed

Our Retail Store is open with a new mask mandate for all customers and staff.

According to the CDC, there is no evidence that COVID-19 can be spread to humans when using a swimming pool or hot tub. This only holds true when proper sanitation and maintenance are performed.

- We recommend getting your water tested once a month during the season.

Schedule your swimming pool spring services today.
